

# MATTHEW JOHN CARPENTER

## CURRICULUM VITAE

**Address:** Medical University of South Carolina  
Hollings Cancer Center  
86 Jonathan Lucas St  
PO Box 250955  
Charleston, SC 29425  
Phone: (843) 876-2436  
FAX: (843) 876-2344  
Email: [carpente@musc.edu](mailto:carpente@musc.edu)

**Home Address:** Mt. Pleasant, SC 29464

**Citizenship:** USA

### ACADEMIC APPOINTMENTS

9/2006 – 7/2010 Assistant Professor  
Department of Psychiatry and Behavioral Sciences,  
Medical University of South Carolina (MUSC)

10/2008 – 7/2010 Assistant Professor  
Dept. of Biostatistics, Bioinformatics, and Epidemiology, MUSC  
(renamed Dept of Public Health Sciences 1/2013)

7/2010 – 12/2015 Associate Professor  
Depts. of Psychiatry & Behavioral Sciences, and Public Health Sciences, MUSC

1/2016 – present Professor, w/ Tenure  
Depts. of Psychiatry & Behavioral Sciences, and Public Health Sciences, MUSC

2/2023 – present Flora McLeod Edwards Endowed Chair for Cancer Research

### RELATED ACADEMIC ROLES

9/2006 – present Member, Hollings Cancer Center, Cancer Control Program  
9/2010 – present Full Member, College of Graduate Studies, MUSC  
1/2011 – present Co-Director, Tobacco Research Program, Hollings Cancer Center  
1/2018 – present Co-Leader, Cancer Control Program, Hollings Cancer Center

### EDUCATION

Undergraduate: James Madison University  
Harrisonburg, VA  
Degree: BS Psychology: 1993

Graduate: Loyola College  
Baltimore, MD  
Degree: MA Clinical Psychology: 1998  
Thesis: *Determinants of Multiple Detoxification: The Revolving Door* (M. Sherman,  
Ph.D., Advisor)

University of Vermont  
Burlington, VT

Degree: PhD: Clinical Psychology: 2003

Dissertation: *Targeting Unmotivated Smokers: Effects of Smoking Reduction on Future Cessation* (J. Hughes, M.D., Advisor)

Internship: Medical University of South Carolina Charleston, SC  
Degree: Psychology Intern: 2003  
Training Emphasis: Behavioral Medicine

Postdoctoral: NIDA Postdoctoral Fellow (2004-06)  
Department of Psychiatry, Division of Clinical Neuroscience  
Medical University of South Carolina, Charleston, SC  
Training Emphasis: Human Lab Studies of Addiction

### **ADDITIONAL TRAINING & WORKSHOPS**

4/2003	NIH Grantsmanship Seminar – Medical University of South Carolina Ron Geller, PhD - Former Deputy Director for Extramural Research in the Office of the Director at NIH
9/2003-10/2003	Responsible Conduct of Research (6wk course) - Foundations of ethical decision making, and aspects of conducting research, reporting research, peer review, handling research data, mentoring, research misconduct, conflicts of interest, and the use of human and animal subjects in research
7/2004	NCI Advanced Training Institute in Health Behavior Theory -- 8-Day Training Workshop Designed to train researchers toward explanation and prevention of health and screening behaviors
4/2006	Media Training – Day long workshop with Timothy Cage, media trainer
8/2008 – 12/2008	Career Development coursework: Foundations in Epidemiology I Department of Biometry, Biostatistics, and Epidemiology, MUSC
3/2009	Analysis of Qualitative Data: NVivo 8 Special Training (Winston Salem, NC)
11/2010	How to Supervise People (Fred Pryor Seminar)

### **PROFESSIONAL MEMBERSHIPS**

1999 – present	Society for Research on Nicotine and Tobacco (SRNT)
2001 – 2011	American Psychological Association (Division 38: Health Psychology)
2005 – 2012	South Carolina Cancer Alliance
2006 – 2012	Society for Behavioral Medicine
2021 – present	American Association of Cancer Research (AACR)
2022 – present	American Society for Preventive Oncology (ASPO)

### **LICENSURE**

South Carolina State Licensure – Clinical Psychology (# 962)

### **AWARDS**

1997 - 1998	National Institute on Drug Abuse Pre-doctoral Fellowship
1998	National Institute on Drug Abuse Director's Travel Award
2002 - 2003	Outstanding Didactic Teaching in Senior Psychiatry Clerkship by a Trainee; Dept. of Psychiatry & Behavioral Sciences, MUSC
2003 - 2005	NIH Clinical Research Loan Repayment Program

2004 NCI Advanced Training Institute in Health Behavior Theory (Competitive Application)  
 2004, 2005 Circle of Excellence - Teaching in Senior Psychiatry Clerkship (MUSC) by a Resident  
 2004 - 2006 National Institute on Drug Abuse Postdoctoral Fellowship  
 2005 - 2006 NIH Clinical Research Loan Repayment Program (Renewal)  
 2006 NIDA Early Career Investigator Award  
 2007- 2008 NIH Clinical Research Loan Repayment Program (Renewal)  
 2009 Developing Scholar Award: Medical University of South Carolina  
 2009 - 2010 NIH Clinical Research Loan Repayment Program (Renewal)  
 2011 Society for Research on Nicotine and Tobacco (SRNT) New Investigator Award  
 2015 South Carolina Governor's Young Scientist Award for Excellence in Scientific Research  
 Non-Refereed Publication: **Carpenter, MJ** (2016). Novel strategies to Promote Smoking Cessation. Journal of the South Carolina Academy of Sciences;14: 1-6.  
 2024 American Society for Preventive Oncology: Joseph W. Cullen (awarded for distinguished contributions to national tobacco control)

### **NATIONAL LEADERSHIP & COMMITTEE WORK**

2/2016 – 7/2017 NIDA Clinical Trials Network (CTN), Steering Committee Co-Chair  
 8/2020 – present NIH/Center for Scientific Review: Simplifying Clinical Trial Criteria Working Group  
 03/2021 Center for Scientific Review Advisory Council, Ad Hoc Member  
 1/2022 – 12/2024 Center for Scientific Review Advisory Council, Standing Member

### **GRANT EXPERIENCE**

The following sections are separated as follows, each generally ordered with most recent grants on top:

*I.a ACTIVE GRANTS – Principal Investigator*  
*I.b ACTIVE TRAINING GRANTS – Primary Mentor*  
*I.c ACTIVE TRAINING GRANTS – Secondary Mentor*  
*I.d ACTIVE GRANTS – co-Investigator*  
*II.a CONCLUDED GRANTS – Principal Investigator*  
*II.b CONCLUDED TRAINING GRANTS – Primary Mentor*  
*II.c CONCLUDED TRAINING GRANTS – Secondary Mentor*  
*II.d CONCLUDED GRANTS – co-Investigator*  
*III.a PENDING GRANTS (PI ONLY)*

#### **I.a ACTIVE GRANTS – Principal Investigator**      **\$ TOTAL DIRECT COSTS NOTED FOR GRANTS AS PI ONLY**

R01 CA284649 (Smith, Carpenter, co-PIs)      07/01/2023 – 06/30/2028  
 NIH/NCI      \$2,224,095 Direct

*A Clinical Trial of Adaptive Treatment for Early Smoking Cessation Relapse*

The proposed study will investigate the best course of action when following an unsuccessful quit attempt with pharmacotherapy. Results will guide clinical decision making for smoking cessation treatment.

Role: Co-Principal Investigator

R01 CA246729 (Carpenter)      07/08/2020 – 06/30/2025  
 NIH/NCI      \$1,724,777 (Direct)

*A Translational Randomized Clinical Trial of Varenicline Sampling to Promote Smoking Cessation and Scalable Treatment Dissemination*

Several prior studies have shown the potential value of medication sampling to promote population-wide smoking cessation engagement. Whether these same benefits apply to varenicline, arguably the best single-agent cessation medication, is unclear. This randomized clinical trial will offer a test of varenicline sampling as a method

to engage all smokers in the quitting process. Ultimately, the population impact of medication/varenicline sampling could be profound, offering a significant and measurable opportunity to lessen the impact of tobacco on public health.

Role: Principle Investigator

R01 CA210625 (Carpenter)

08/01/2017 – 07/31/2024 (NCE)

NIH/NCI

\$1,838,040 (Direct)

*A naturalistic nationwide randomized study of e-cigarette uptake and consequences*

Electronic (e-)cigarettes are the fastest growing non-cigarette product available to smokers, yet the science base to understand these products has not kept pace. This will be among the first prospective, large scale randomized studies of e-cigarette use in the U.S., with aims to examine the naturalistic course of uptake and consequence of e-cigarette use.

### **I.b ACTIVE TRAINING GRANTS – Primary Mentor**

T32 HL144470 (Feghali-Bostwick)

07/01/2019-06/30/2024

NIH/NHLBI

*Pulmonary Focused Foundations in Innovation and Scholarship (PuFFInS)*

There is an urgent, unmet public health need to improve outcomes for chronic lung diseases, which disproportionately impacts the Southeast. This program will provide research training for investigators who will ultimately improve the healthcare and outcomes for individuals with lung diseases with particular emphasis on lung cancer prevention, screening and implementation, critical care, and rare lung diseases, including pulmonary fibrosis, sarcoidosis and cystic fibrosis. Training in innovation and entrepreneurship will enable investigators to create innovative solutions to challenges in health, to catalyze interdisciplinary entrepreneurial efforts, and ultimately become change agents to address national and global health problems.

Role: Mentor; Pathway Liaison for Tobacco Research

K01 DA047433 (Smith)

01/15/2019 – 12/31/2023

NIH/NIDA

*Impact of e-cigarette characteristics on reinforcement and tobacco use patterns among current smokers*

The proposed project will test the impact of two key e-cigarette and e-liquid characteristics on reinforcement value and use in current cigarette smokers. These data will provide information about the factors that contribute to changes in tobacco use patterns among smokers who try e-cigarettes, and could inform the FDA or other regulatory agencies about how they might regulate key characteristics to influence tobacco use patterns and ultimately public health.

Role: Primary Mentor

### **I.c ACTIVE TRAINING GRANTS – Secondary Mentor**

### **I.d ACTIVE GRANTS – co-Investigator**

R01 DA056445 (Smith)

09/01/2023 – 07/31/2028

*Non-cigarette tobacco products as harm reduction tools in smokers who failed to quit with traditional methods*

This clinical trial tests the impact of e-cigarettes as a harm reduction approach compared to traditional treatments among people who smoke and cannot quit with FDA-approved pharmacotherapy (N=225).

Role: Co-Investigator

R01 DA055985 (Smith)

05/01/2023 – 04/30/2028

*The impact of menthol regulation for cigarettes and e-cigarettes on tobacco use patterns for current menthol smokers*

The United States Food and Drug Administration is planning to implement a ban on menthol cigarettes, and the future of e-liquid flavoring, including menthol, remains unclear. The proposed project will be among the first

randomized controlled trials to assess the impact of a cigarette menthol ban and an e-cigarette menthol ban on cigarette use, e-cigarette use, and the ability to abstain from smoking among current menthol smokers.

Role: Co-Investigator

R01 DA057327 (Wagener/Smith)

05/01/2023 – 04/30/2028

*A Comprehensive Evaluation of Tobacco-Flavored vs. Non-Tobacco Flavored E-cigarettes on Smoking Behavior*

The proposed nationwide randomized controlled trial will be the first to provide the US FDA with critical and definitive information as to the impact of non-tobacco e-cigarette flavors on switching among adult smokers.

Role: Co-Investigator

R01 HL60656 (Mathew)

09/15/2022 – 07/31/2027

NIH/NHLBI

*A Mechanistic Test of Treatment Strategies to Foster Practice Quitting*

The proposed research will test how practice quitting counseling and nicotine replacement therapy sampling impact potential mediators and smoking cessation attempts. The long-term goal of this line of research is to add to the smoking cessation treatment literature, particularly for smokers not yet ready to quit.

Role: Co-Investigator

R01 CA268023 (Dahne)

9/09/2022 – 08/31/2027

NIH/NCI

*Addressing Rural Cancer Disparities via Proactive Smoking Cessation Treatment within Primary Care: A Hybrid Type 1 Effectiveness-Implementation Trial of a Scalable Smoking Cessation Electronic Visit*

The present research project will test the clinical effectiveness and evaluate implementation of an asynchronous smoking cessation electronic visit that will be delivered proactively via the EHR to all rural smokers.

Role: Co-Investigator

UG3 DA048507 (Li)

05/15/2021 – 04/30/2023

UH3 DA - pending

NIH/NIDA

*rTMS Manipulates Imbalance Drive-Reward and Executive Control Circuitry for Smoking Cessation*

Repetitive transcranial magnetic stimulation (rTMS) is a non-invasive form of brain stimulation that has already displayed remarkable potential for producing novel, non-pharmacological interventions for neuropsychiatric disorders. Here we will develop a brain circuit-based precision rTMS therapy for smoking cessation.

Role: Co-Investigator

UG3 DE029973 (Japuntich)

8/1/2020 – 7/30/2022

UH3 DE029973

8/5/2022 – 7/31/2025

NIH/NIDCR

*Effectiveness of Nicotine Replacement Therapy Sampling in Dental Practices*

Based on findings from previous trials, this cluster randomized, hybrid type 1 implementation-effectiveness trial will test whether combining brief advice with nicotine replacement therapy (NRT) sampling, which refers to providing patients who smoke with free samples of over-the-counter nicotine patches and nicotine lozenges, during a routine dentist visit increases rates of abstinence, quit attempts, and use of NRT. The results of the proposed research have potential for important clinical and policy significance with regard to reducing tobacco-related morbidity and mortality.

Role: Co-Investigator

UG1 DA013727 (Brady, Barth, co-PIs)

6/1/2020– 2/28/2025

NIH/NIDA

*Southern Consortium Node of the Clinical Trials Network*

The Clinical Trials Network (CTN) is a cooperative agreement between NIDA, treatment providers, and researchers throughout the nation in which science is being utilized as a vehicle to improve the treatment of addictions. It is the goal of the Southern Consortium Node to work collaboratively with NIDA, the NIDA contracted

coordinating and data centers, and other CTN Nodes in conducting and directing multi-site clinical trials and dissemination efforts.

Role: Co-Investigator

R37 CA237245 (McClure)

07/01/2019-06/30/2024

NIH/NCI

*Determining the Impact of Cannabis Use and Severity on Tobacco Cessation Outcomes: A Prospective Tobacco Treatment Trial*

This 5-year MERIT grant (R01 equivalent, with 2 additional years of funding possible) from the National Cancer Institute will evaluate the impact of cannabis co-use on tobacco treatment among adults and assess changes in cannabis use during treatment.

Role: Co-Investigator

P30 CA138313 DuBois (PI)

01/01/2018 - 03/31/2024

NIH/NCI

*Medical University of South Carolina - Cancer Center Support Grant*

The purpose of this grant is to support the ongoing research infrastructure, research programs, shared resources, developmental funds and administration of the Hollings Cancer Center at the Medical University of South Carolina in order to ensure the development of more effective approaches to cancer control, diagnosis, and therapy.

Role: Co-Leader, Cancer Control Program

UL1TR001450 (Brady, PI)

8/31/2015 – 3/31/2025

*South Carolina Clinical & Translational Research Institute*

A major focus of this application is to strengthen SCTR's statewide collaborations through innovative partnerships and initiatives with an emphasis on rural and medically underserved communities where significant health disparities exist. We will develop, demonstrate and disseminate innovative ways to train a diverse workforce and address barriers to translational research, and we will continue to collaborate across the CTSA Consortium to maximize impact and improve the health of the nation.

Role: Co-Director, Virtual Trials Program

5U66RH31458-02-00 (Ford)

07/01/2018 - 09/30/2024

HRSA

*Telehealth Center of Excellence*

As a National Telehealth Center of Excellence (COE) the proposed aim is to leverage the unique qualities intrinsic to our academic medical center and extend our mission nationally to "Accelerate the dissemination of best practices to achieve effective and efficient care".

Role: Co-Investigator

**II.a CONCLUDED GRANTS – Principal Investigator \$TOTAL DIRECT COSTS NOTED FOR GRANTS AS PI ONLY**

2R01DA021619-05 (Carpenter)

09/15/2013 – 05/31/2020 (renewal; NCE)

NIH/NIDA

\$2,129,776 (Direct)

*Brief, Novel Smoking Cessation in Primary Care: A Comparative Effectiveness Trial*

This comparative effectiveness trial will test whether NRT sampling, i.e., provision of starter-kits of nicotine replacement therapy, when combined with standard physician advice to quit, results in significant improvements in smoking-related outcomes (abstinence, quit attempts, use of additional quit resources) as compared to quit advice alone.

UG1 DA013727 (Brady, Carpenter, co-PIs)

05/30/2016– 06/01/2020

NIH/NIDA

2,500,000 (Direct)

*Southern Consortium Node of the Clinical Trials Network*

The Clinical Trials Network (CTN) is a cooperative agreement between NIDA, treatment providers, and researchers throughout the nation in which science is being utilized as a vehicle to improve the treatment of addictions. It is the goal of the Southern Consortium Node to work collaboratively with NIDA, the NIDA contracted coordinating and data centers, and other CTN Nodes in conducting and directing multi-site clinical trials and dissemination efforts.

Note: Dr. Carpenter held co-PI role on CTN between 2016-2020, after which (06/2020→) he held co-I role.

[no number] (Carpenter) 5/1/2018 – 3/31/2020  
MUSC Hollings Cancer Center \$300,000 (Direct)

*Translational Science to Innovate Smoking Cessation Interventions through Enhancement of Self-Regulation*  
This intramural Team Science Award includes three sub-projects that collectively focus on novel methods to address to intervene upon behavioral, emotional, and cognitive dysregulation among adult smokers. Our long-term vision is to capitalize on our translational strengths, encompassing a full methodologic and inter-disciplinary spectrum and pursue NIH program project funding.

R41MH108219 (Felton) 09/01/2015 – 08/31/2017 (NCE through 2018)  
NIH/NIMH \$39,124 (Direct, Sub-Award only)

*Development and Testing of a Behavioral Activation Mobile Therapy for Elevated Depressive Symptoms*  
The purpose of the proposed project is to customize Behavioral activation (BA), a straightforward, empirically supported treatment for elevated depressive symptoms, for a mobile format (Behavioral Appivation) in order to address the currently unmet needs of primary care providers and their patients with elevated depressive symptoms.

Role: Principle Investigator of sub-award from Univ. of Maryland

R41MH010491 (Carpenter) 09/01/2016 – 08/31/2017 (NCE through 2018)  
NIH/NIMHHD \$89,884 (Direct)

*Development of a Behavioral Activation Mobile App for Depressed Latinos*  
The purpose of the proposed project is to develop, test, and refine a Spanish-language mobile application version of brief Behavioral Activation, an idiographic, straightforward, empirically supported treatment for elevated depressive symptoms, for referral by primary care physicians in the service of increasing access to evidence-based treatment for depression for Latinos.

R01CA154992-01 (Carpenter) 04/01/2011 – 03/31/2017 (no cost ext.)  
NIH/ NCI \$1,704,458 (Direct)

*A Novel Trial of Smokeless Tobacco for Cessation Induction in Unmotivated Smokers*  
Using a large, long-term, randomized clinical trial, this study examines the impact of using an oral, smokeless, reduced exposure tobacco product among smokers unmotivated to quit, with a specific focus on subsequent quit attempts and related smoking and cessation behavior.

R21DA037407 (Carpenter) 08/01/2014 – 07/31/2017 (no cost ext.)  
NIH/NIDA \$272,098 (Direct)

*A Randomized Trial of E-Cigarettes: Natural Uptake, Patterns, and Impact of Use*  
Electronic (e-)cigarettes are the fastest growing non-cigarette product available to smokers, yet the science base to understand these products has not kept pace. This pilot randomized clinical trial will provide important information for regulatory authorities regarding how and why smokers initiate e-cigarette use, and how such use affects smoking behavior.

1R01DA021619-01 (Carpenter) 09/30/2007 – 05/31/2011  
NIH/ NIDA \$890,722 (Direct)

*A Novel Treatment to Boost Quit Attempts and Cessation Among Unmotivated Smokers*  
The primary specific aim this large RCT is to test whether adding free nicotine replacement therapy (NRT) to brief advice to undertake a practice quit attempt will motivate more smokers to make a serious attempt to stop smoking than a brief advice without NRT.

1K23DA020482-01A1 (Carpenter)

09/30/2007 – 08/31/2013 (no cost extension)

NIH/ NIDA

\$785,810 (Direct)

*Stimulus Control and Trajectories of Adolescent Smoking*

The purpose of this K23 Mentored Patient-Oriented Research Career Development Award is to broaden the candidate's expertise in smoking cessation research by training in 1) adolescent smoking, and 2) human laboratory methodologies.

(Carpenter)

10/01/2011 – 05/30/2013

MUSC Hollings Cancer Center (internal seed money) \$75,000 (Direct)

*A Pilot Translational Study of Sampling NRT for Cessation Induction: Is Motivation Necessary?*

This pilot clinical trial will test A) NRT sampling + referral to quitline (motivated smokers) vs. B) NRT sampling + referral to quitline (unmotivated smokers) vs. C) referral to quitline (unmotivated smokers). Our primary aims are to 1) establish feasibility and 2) determine effect sizes, with the ultimate goal of submitting to NIH for funding of a larger trial.

(Carpenter)

01/15/2009 – 12/15/2010

Prevent Cancer Foundation \$80,000 (Direct)

*A Pilot RCT to Examine a Potentially Reduced Exposure Tobacco Product*

The proposed study is an innovative pilot clinical trial of Potentially Reduced Exposure Products (PREPs), tested among smokers not interested in quitting, with aims to examine changes in smoking behavior, tobacco exposure, and motivation to quit.

(Carpenter/Sutfin, Co-PIs)

9/2007-2/2009

WFU Comprehensive Cancer Center and Hollings Cancer Center at the Medical University of South Carolina (Inter-Institutional Pilot Project)

\$24,889 (Direct)

*A Qualitative Examination of Non-Daily Smokers: Implications for Tobacco Control*

The goal of this project is to use a qualitative approach to examine two issues particularly salient and inextricably linked to nondaily smoking among young adults: 1) contextual forces (e.g., individual, interpersonal, and community that influence nondaily smoking, and 2) onset of nicotine dependence.

IRG-97219-08 (Carpenter\*)

01/01/2007 – 06/30/2008 (no cost extension)

American Cancer Society Institutional Research Grant \$24,000

*Translating advances in smoking cessation into public health impact: Identification of individual-level barriers to NRT*

Specific aim is to examine exact and detailed perspectives on NRT across and within groups of smokers via focus group methodology

\*ACS IRG Principal Investigator: C. Reed

(Carpenter)

07/01/2005 – 06/30/2006

MUSC/ Dept. of Psychiatry: Women's Research Center \$10,000

*Menstrual Phase Influences on Smoking Cessation: A Pilot Study*

The purpose of this MUSC-funded pilot study is to examine the comparative impact of two menstrual phases (follicular vs. luteal) on withdrawal, craving, and abstinence among a sample of treatment seeking women smokers.

**II.b CONCLUDED TRAINING GRANTS – Primary Mentor**K23 DA045766 (Dahne)

04/01/2018 – 3/31/2023

NIH/NIDA

*Development and testing of a depression-specific behavioral activation mobile app paired with nicotine replacement therapy sampling for smoking cessation treatment via primary care.*

This project will develop, systematically evaluate, and clinically test an integrated cessation intervention comprised of a depression-specific Behavioral Activation (BA) for cessation smartphone mobile application

(Goal2Quit) and nicotine replacement therapy (NRT) sampling (i.e., provision of a two-week combination NRT starter kit) that will meet the unmet need for an easily disseminable, evidence-based, depression-specific cessation intervention for delivery via primary care.

Role: Primary Mentor

American Cancer Society Institutional Research Grant (Heckman) 01/2016 – 12/2017

*Geospatial Innovations to Enhance Precision Medicine for Tobacco Control*

Using geospatial analyses, this study aims to determine how densities of retailers of 1) tobacco, 2) nicotine replacement therapy, and/or 3) electronic cigarettes are associated with smoking and disadvantaged populations in Charleston.

Role: Primary Mentor

American Cancer Society Institutional Research Grant (Dahne) 01/2018 – 12/2019

*Development and Evaluation of a Low-Cost, Remote Method to Biochemically Verify Smoking Status*

This study aims to develop and validate a smartphone-enabled method to remotely capture carbon monoxide (CO) to objectively verify smoking status.

Role: Primary Mentor

K07 CA181351 (Burris)

09/01/2014 – 8/31/2019

NIH/NCI

*The Dynamics of Smoking Cessation After Cancer Diagnosis: A Naturalistic Study*

The goal of this research is to uncover the process of smoking cessation in newly diagnosed head and neck cancer patients and to identify the dynamics of cognitive and affective variables that underlie quit attempts, lapses, and relapses. The results will inform the design of more effective smoking cessation treatments, which has clear implications for the prevention of future threats to the health of cancer patients.

Role: Mentor (note: Grant was submitted and funded while Dr. Burris was at MUSC/Carpenter: primary mentor; Dr. Burris since transitioned to Univ Kentucky/Carpenter: secondary mentor)

IDEA Award (Smith)

07/01/2019-06/30/2021

Hollings Cancer Center

*Comparison of leading e-cigarette product types on reinforcement value and tobacco use patterns among current smokers*

The goal of this project is to test how the two newest types of ENDS products (customizable tanks, pods) impact the reinforcement value and use of combustible cigarettes.

Role: Primary Mentor

K23 DA041616 (Heckman)

02/01/2017 – 1/31/2022

NIH/NIDA

*Personalized smoking relapse prevention delivered in real-time via just in time adaptive interventions*

In an effort to reduce relapse risk the proposed studies will evaluate a personalized intervention that will deliver evidence-based treatment in real-time through mobile phones to meet the dynamic needs of patients engaged in a quit attempt. Given the high rates of mobile phone ownership, this intervention has great promise for increasing access to smoking cessation/relapse prevention services, thereby benefiting public health.

Role: Primary Mentor

## **II.c CONCLUDED TRAINING GRANTS – Secondary Mentor**

F31DA052158 (Sisson)

06/23/2020 – 06/22/2022

*Increasing Naloxone Access for Persons who use Opioids: An Online Recruitment and Training Approach to Opioid Overdose Education and Naloxone Distribution*

The main purpose of the dissertation project (N=80) is to examine the feasibility and acceptability of a novel approach to Opioid Overdose Education and Naloxone Distribution (OEND) that utilizes online recruitment, online opioid overdose education, and remote distribution of naloxone kits.

Role: Secondary Mentor

K07CA214839 (Rojewski)

09/18/2017 – 08/31/2022

*Tobacco Treatment in the Context of Lung Cancer Screening*

The proposed study will test dual NRT and a gain-framed text messaging intervention specifically designed for lung cancer screening patients. The intervention has the potential to increase the rates of smoking cessation among lung cancer screening patients and may be translatable to the growing number of lung cancer screening programs across the country.

Role: Secondary Mentor

**II.d CONCLUDED GRANTS – co-Investigator**R01 DA043587 (Saladin)

08/01/2018 - 07/31/2023 (NCE)

NIH/NIDA

*Targeting Foundational Memory Processes in Nicotine Addiction: A Translational Clinical Neuroscience Study of a Retrieval-Extinction Intervention to Reduce Craving & Smoking Behavior*

This study examines the treatment potential of a novel behavioral therapy that targets memories subserving cigarette smoking behavior. A key element of this study is the use of fMRI methods to identify the neural circuitry associated with (a) the acute effects of the treatment, and (b) treatment outcomes.

Role: Co-Investigator

R42 MH108219 (Dahne)

03/01/2020-02/28/2023

NIH/NIMH

*Development and Testing of a Behavioral Activation Mobile Therapy for Elevated Depressive Symptoms*

Following up on a successfully completed Phase I STTR, the Aims of this Phase II STTR are to: 1) Refine Moodivate and develop the EHR provider portal, 2) Via a three-arm randomized controlled trial (N=600), examine the efficacy of Moodivate vs. Moodivate + EHR integration vs. treatment as usual for the treatment of depressive symptoms within primary care, and 3) Conduct a cost-effectiveness analysis to quantify the financial benefits of Moodivate and Moodivate + EHR implementation within primary care.

Role: Co-Investigator

1R01 DA042114 (Gray)

03/15/2017 – 01/31/2023 (NCE)

NIH/NIDA

*N-Acetylcysteine and Contingency Management for Youth Cannabis Use Disorder*

The purpose of this project is to examine the efficacy of N-acetylcysteine for adolescent cannabis cessation.

Role: Co-Investigator

R01 CA207229 (Toll)

09/08/2016 – 08/31/2022 (NCE)

NIH/NCI

*Gain-Framed Messages and NRT Sampling to Promote Smoking Cessation in Lung Cancer Screening Programs*

Most smokers presenting for screening have variable motivation to quit. This RCT examines the isolated and combined effects of two novel interventions in the context of lung cancer screening, offering potential to improve cessation rates for this high-risk group of smokers.

Role: Co-Investigator

R21 CA241842 (Dahne)

*Remote Methods to Biochemically Verify Smoking Status*

We will develop a remote CO data capture system through which a smartphone-enabled CO monitor (iCO™ Smokerlyzer) is integrated with REDCap. Subsequently, we will conduct a remote feasibility trial with smokers (N=127) to examine: a) validity of the remote iCO™/REDCap data capture system as compared to gold-standard methods for biochemical verification of smoking and b) compliance with remote CO monitoring via the iCO™/REDCap system as applied both to episodic (i.e., once per week) and granular (i.e., once per day) data collection.

*Evaluating How Tobacco Control Policies are Shaping the Nicotine Delivery Market*

There is debate about whether vaporized nicotine products (VNPs) will prove to have a net positive or negative impact on population health. Policies regulating VNPs are rapidly evolving and data are needed to guide policy development. This Program Project presents an innovative and integrated set of studies that will fill this gap by contributing high impact science and novel research methods useful for evaluating how the evolving VNP marketplace and tobacco control policy environment are impacting individuals and population health outcomes.

Role: Co-Investigator

NIH/ NCI

*Dual use of combustible and electronic cigarettes: A fine-grained naturalistic cohort study to investigate dynamic use patterns and trajectories that lead to smoking cessation*

This prospective cohort study will examine the natural course of dual use (combustible and electronic cigarette), as compared to exclusive smoking and exclusive e-cigarette use. Using a multi-method assessment approach, the aims are to compare dynamic patterns of use within and across groups, as well to identify the unique and combined patterns of dual use that best predict eventual quitting of combustible cigarettes. Study results will have clinical and regulatory implications for fast growing number of alternative tobacco products and those who (co-)use them.

- \*Mathew, A.R., Heckman, B.W., Meier, E., & **Carpenter, M.J.** (2016, March). Development and initial validation of the cessation fatigue scale. Poster accepted for presentation at the 22<sup>nd</sup> annual meeting of the Society for Research on Nicotine and Tobacco, Chicago, IL.
- \*Mathew, A.R., Froeliger, B., Saladin, M.E., Brown, R.A., Hitsman, B., & **Carpenter, M.J.** (2016, March). Role of distress intolerance on motivation to quit and smoking lapse behavior in adult daily smokers. Testing addiction theory-based mechanisms of smoking behaviors: From clinical treatment to novel human laboratory paradigms. Symposium accepted for presentation at the 22<sup>nd</sup> annual meeting of the Society for Research on Nicotine and Tobacco, Chicago, IL.
- \*Heckman, B.W., **Carpenter, M.J.**, Kasza, K.A., Borland, R., Burris, J.L., Fong, G.T., McNeill, A., & Cummings, K.M. (2016, March). Effectiveness of using the same versus different smoking cessation medication following relapse: Findings from the International Tobacco Control (ITC) four country survey. Oral paper presented at the 22<sup>nd</sup> annual meeting of the Society for Research on Nicotine and Tobacco, Chicago, IL.
- Carpenter, M.J.** (2016, April). Use of snus undermines quit attempts but not cessation: Results from a 1-year randomized clinical trial among U.S. smokers. Oral presentation at the National Smokeless and Spit Tobacco Conference, Albuquerque, NM.
- Carpenter, M.J.** (2016, August). Naturalistic use and outcomes of sampling e-cigarettes: Results from two randomized pilot studies. Oral presentation at the American Psychological Association Annual Conference, Denver, CO.
- \*Dahne, J., Heckman, B.W., **Carpenter, M.J.** (2017, March). Behavioral activation mediates the relationship between depression and quitting smoking, but not relapsing. Poster presentation at the 23<sup>rd</sup> annual meeting of the Society for Research on Nicotine and Tobacco, Florence, Italy.

- Carpenter, MJ**, Heckman, BW, Wahlquist, AE, Boatright, A, Froeliger, B, Gray, KM, Cummings, KM. (2017, March). The naturalistic uptake and impact of e-cigarettes: Results from a pilot randomized trial. Oral presentation at the 23<sup>rd</sup> annual meeting of the Society for Research on Nicotine and Tobacco, Florence, Italy.
- \*Dahne, J., Wahlquist, A.E., Garrett-Mayer, E., Heckman, B. W., Cummings, K.M., & **Carpenter, M.J.** (2018). Getting the most bang for your buck: The impact of state tobacco control policies on utilization of smoking cessation treatment. Accepted for oral presentation at the 2018 Annual Meeting of the South Carolina Tobacco-Free Collaborative. Columbia, South Carolina.
- \*Dahne, J., Lejuez, C. W., Ruggiero, K., Felton, J., Diaz, V., Player, M., Kustanowitz, J., & **Carpenter, M.J.** (2017). Development and pilot testing of a Behavioral Activation mobile app ("Moodivate") for dissemination via primary care. In J. Dahne & K. Tomasino (Chairs), *Utilizing Technology-Based Interventions to Increase Access to Evidence-Based Treatments for Internalizing Disorders Across Diverse Populations and Settings*. Oral symposium at the 51<sup>st</sup> Annual Convention of the Association for Behavioral and Cognitive Therapies, San Diego, California.
- \*Dahne, J., Wahlquist, A.E., Garrett-Mayer, E., Heckman, B.W., Cummings, K.M., & **Carpenter, M. J.** (2017). Getting the most bang for your buck: The impact of state tobacco control policies on utilization of smoking cessation treatment. Accepted for oral presentation at the 17<sup>th</sup> annual Hollings Cancer Center research retreat, Charleston, South Carolina.
- \*Dahne, J., Wahlquist, A. E., Garrett-Mayer, E., Heckman, B.W., Cummings, K.M., & **Carpenter, M.J.** (2017). Individual-Level Moderators of the Relationship Between State Tobacco Policies and Evidence-Based Cessation Method Usage: Results from a Large, Nationally Representative Dataset. Poster presented at the National Conference on Tobacco or Health, Austin, Texas.
- \*Shoemaker, H., Dahne, J., Heckman, B.W., & **Carpenter, M.J.** (2017). The Interaction Between Depression and Social Anxiety as a Predictor of Motivation and Confidence to Quit Smoking. Poster presented at the 38<sup>th</sup> annual meeting of the Society of Behavioral Medicine, San Diego, California.
- \*Dahne, J., Wahlquist, A.E., Garrett-Mayer, E., Heckman, B.W., Cummings, K.M., & **Carpenter, M.J.** (2018). The Differential Impact of State Tobacco Control Policies on Cessation Treatment Utilization Across Established Tobacco Disparities Groups. Poster presented at the 24<sup>th</sup> annual meeting of the Society for Research on Nicotine and Tobacco, Baltimore, Maryland.
- \*Dahne, J., Lejuez, C.W., Felton, J., Diaz, V., Player, M., Kustanowitz, J., & **Carpenter, M.J.** (2018). Pilot randomized controlled trial of a Behavioral Activation mobile app ("Moodivate") for the treatment of depressive symptoms among primary care patients. In J. Dahne & D. McNeil (Chairs), *Behavioral and Cognitive Science-Based Treatment: Harnessing Technology to Enhance Accessibility and Outcomes*. Symposium conducted at the 52<sup>nd</sup> Annual Convention of the Association for Behavioral and Cognitive Therapies, Washington, District of Columbia.
- \*Natale, N., Coles, L., Diaz, V.A., **Carpenter, M.J.**, & Dahne, J. (2018). Acculturation as a Predictor of Mental and Physical Health among Hispanic Adults with Elevated Depressive Symptoms. Poster presented at the 52<sup>nd</sup> Annual Convention of the Association for Behavioral and Cognitive Therapies, Washington, District of Columbia.
- Carpenter, M.J.**, Wahlquist, A.E., Davis, R., Dahne, J.R., Cummings, K.M., Gray, K.M., & Egan, B. (2019). Medication sampling to engage smokers: Initial results from a cluster randomized clinical trial in primary care practices. Symposium presented at the 25<sup>th</sup> annual meeting of the Society for Research on Nicotine and Tobacco, San Francisco, CA.
- \*Smith, T.T., Donny, E.C., Koopmeiners, J.S., White, C.M., Denlinger-Apte, R.L., Pacek, L.R., Hatsukami, D.K., Benowitz, N.L., & **Carpenter, M.J.** (2019). The impact of exclusive use of very low nicotine content cigarettes on compensatory smoking: An inpatient study. In J. E. Cohen (chair), Policy Research Network Symposium: Advancing the Tobacco Endgame. Symposium presentation at the Society for Research on Nicotine and Tobacco, San Francisco, CA.
- \*Smith, T.T., Heckman, B.W., Cummings, K.M., & **Carpenter, M.J.** (2019). The ratio of propylene glycol and vegetable glycerin within e-liquids: Impact on vaping reinforcement value and tobacco use patterns in current cigarette smokers. Poster presentation at the Society for Research on Nicotine and Tobacco, San Francisco, CA.

- \*Leavens, E.L.S., Smith, T.T., Natale, N., & **Carpenter, M.J.** (2020, March). Nicotine dependence and demand among pod-mod electronic cigarette users as a function of smoking status. Paper presented at the annual meeting of the Society for Research on Nicotine and Tobacco, New Orleans, LA.
- Carpenter, M.J.**, Wahlquist, A.E., Clark, J.T., & Dahne, J. (2020, March). Screening for Remote Clinical Trials: Methods to Enhance Participant Diversity. In **M.J. Carpenter** (Chair), Symposium: *Neither Home nor Away Innovative Methods for Remote Clinical Trials*. Symposium presentation at the Society for Research on Nicotine and Tobacco, New Orleans, LA.
- Dahne, J., Tomko, R., McClure, E., **Carpenter, M.J.** (2020, March). Development and evaluation of a low cost, remote method to biochemically verify smoking status. In **M.J. Carpenter** (Chair), Symposium: *Neither Home nor Away Innovative Methods for Remote Clinical Trials*. Symposium presentation at the Society for Research on Nicotine and Tobacco, New Orleans, LA.
- \*Leavens, ELS, **Carpenter, MJ**, Smith, TT, & Nollen, N. (2020, April). Exploratory evaluation of online brief education for JUUL use and prevention. Paper presentation at the annual meeting of the Association for Clinical and Translational Science, Washington D.C.
- \*Leavens, ELS, **Carpenter, M J**, Smith, TT, & Nollen, N. (February, 2021). Exploratory evaluation of online brief education for JUUL pod-mod use and prevention. Poster accepted for presentation at the annual meeting of the Society for Research on Nicotine and Tobacco, Baltimore, MD.
- \*Hawes, ES, Wahlquist, AE, Dahne, J, Smith, TT, **Carpenter, MJ** (February, 2021). Changes in cessation fatigue among smokers in a medication sampling trial. Poster accepted for presentation at the annual meeting of the Society for Research on Nicotine and Tobacco, Baltimore, MD.
- \*O'Neil, R., Fahey, M.C., Wahlquist, A.E., Smith, T., **Carpenter, M.J.** (2022, October). Demographic and smoking history correlates of anticipated reasons for electronic nicotine delivery system (ENDS) use. Presentation at Medical University of South Carolina LOWVELO Trainee Symposium, Charleston, SC.
- \*Fahey, M.C., Dahne, J., **Carpenter, M.J.** (2023, June). Expectations and patterns of electronic nicotine delivery systems (ENDS) use among older adults who smoke cigarettes in a nationwide RCT. In B. Kleykamp (Chair), *The intersection of aging, tobacco use, and health equity*. Symposium accepted for presentation at the meeting of the College on Problems of Drug Dependence, Denver, CO.
- \*Fahey, MC, **Carpenter, MJ**, Toll, BA, O'Neil, R, Pebley, K, Ware, E, Schick, MR, Dahne, J (2023, March). A qualitative exploration of older adults who smoke cigarettes and their preferences and concerns for technology-based cessation treatment. Oral presentation at the annual meeting of the Society for Research on Nicotine & Tobacco Conference, San Antonio, Texas.
- Carpenter, MJ**, Wahlquist, A. Cummings, KM, & Smith, TT. (2023, March). The Impact of E-cigarettes on Smoking Cessation: Results from a Large, Randomized, Nationwide Clinical Trial in the United States. In **M.J. Carpenter** (Chair), Symposium: *Complementary Approaches to Examining Relationships Between E-Cigarettes and Smoking: Novel Data from the US*. Symposium presentation at the Society for Research on Nicotine & Tobacco Conference, San Antonio, Texas.

\*trainees under direct supervision/mentorship

### **EDITORIAL BOARDS**

- 4/2012 – present Journal of Behavioral Medicine, Editorial Board Member  
 4/2013 – present CNS Drugs, Editorial Board Member  
 1/2017 – 6/2021 Journal of Tobacco Regulatory Science, Associate Editor  
 3/2019 – 10/2019 Invited Guest Editor for Themed Issue of *Nicotine & Tobacco Research: Clinical Interventions to Increase Quit Attempts Among Smokers*

### **AD HOC JOURNAL REVIEWS** (ONGOING, PAST 5 YRS)

#### **MENTORSHIP / STUDENT ADVISING EXPERIENCE**

##### **Psychology Interns – Primary Research Preceptor**

(through MUSC Dept of Psychiatry, Pre-Doctoral Psychology Internship Program):

Katherine Ryan (8/2009 – 7/2010) Doctoral degree conferred from University of Vermont  
Following position: Behavioral Specialist, MaineHealth, Center for Tobacco Independence

Bianca Jardin (8/2010 – 7/2011) Doctoral degree conferred from University of Albany  
Following position: Postdoctoral Fellow, MUSC (see below)

Jessica Burris (8/2011 – 7/2012) Doctoral degree conferred from University of Kentucky  
Following position: Postdoctoral Fellow, MUSC (see below)

Amanda Mathew (8/2012 – 7/2013) Doctoral degree conferred from University of Houston  
Following position: Postdoctoral Fellow, MUSC (see below)

Bryan Heckman (8/2013 – 7/2014) Doctoral degree conferred from Univ. of South Florida  
Following position: Postdoctoral Fellow → Assistant Professor, MUSC (see below)

Ellen Meier (8/2014 – 7/2015) Doctoral degree conferred from University of Oklahoma  
Following position: Postdoctoral Fellow, University of Minnesota

Jennifer Dahne (8/2015 – 7/2016) Doctoral degree conferred from Univ. of Maryland  
Grant Achievements (M. Carpenter, primary mentor): NIMH Small Business Technology Transfer (STTR) Grant (Subcontract Funded to MUSC through Univ. of Maryland): *Development and Testing of a Behavioral Activation Mobile Therapy for Elevated Depressive Symptoms*  
Following position: Postdoctoral Fellow → Assistant Professor, MUSC (see below)

Eleanor Leavens (8/2018 – 7/2019) Doctoral degree conferred from Oklahoma State University  
Following position: Postdoctoral Fellow, University of Kansas

Margaret Fahey (8/2021 – 7/2022) Doctoral degree conferred from University of Memphis  
Following position: Postdoctoral Fellow, MUSC (see below)

##### **Postdoctoral Fellows & Junior Faculty– Primary Mentor**

Bianca Jardin (8/2011 – 6/2013)

Position upon leaving: Co-Director, Behavioral Health, Roper St. Francis Hospital

Grant Achievements (M. Carpenter, primary mentor):

1. National Lung Cancer Partnership Young Inv. Research Grant (submitted, unfunded)

Jessica Burris (8/2012 – 7/2014)

Position upon leaving: Assistant Professor, University of Kentucky

Grant Achievements (M. Carpenter, primary mentor):

1. NCI K07 Career Development Award (funded): *The Dynamics of Smoking Cessation After Cancer Diagnosis: A Naturalistic Study* (K07 CA181351; 09/01/14 – 08/30/19)
2. Loan Repayment Program (Funded)
3. Minority Supplement to R01CA154992-01 (funded but refused: change of institution)

Amanda Mathew (8/2013 – 8/2015)

Position upon leaving: Research Assistant Professor, Northwestern University

Grant Achievements (M. Carpenter, primary mentor):

1. NIDA F32 Individual Postdoctoral Award (funded): *Distress Intolerance on Smoking Lapse Among Motivated vs. Unmotivated Smokers* (1F32DA036947; 8/12/14 – 8/11/16)
2. Loan Repayment Program (Funded)

Bryan Heckman (8/2014 – 7/2020)

Grant Achievements (M. Carpenter, primary mentor):

1. Loan Repayment Program (Funded)
2. K12 Institutional Career Development Award (Funded): *Personalized Smoking Relapse Prevention via Just-in-Time-Adaptive Interventions*
3. American Cancer Society, Institutional Review Grant (IRG) (Funded): *Geospatial Innovations to Enhance Precision Medicine for Tobacco Control*
4. NIDA K23 Career Development Award (Funded): *Personalized Smoking Relapse Prevention Delivered in Real-Time via Just-in-time Adaptive Interventions* (K23 DA041616; 2/1/2017 – 1/31/2022).

Jennifer Dahne (8/2015 – 2021, concluding with her promotion from Assist → Associate Professor)

Grant Achievements (M. Carpenter, primary mentor):

1. Loan Repayment Program (Funded)
2. NIMH Small Business Technology Transfer (STTR) R41 Grant (Subcontract Funded through Univ. of Maryland): *Development and Testing of a Behavioral Activation Mobile Therapy for Elevated Depressive Symptoms*
3. NIMHHD (STTR) R41 Grant: *Development of a Behavioral Activation Mobile App for Depressed Latinos*  
NOTE: both R41 grants are technically under my name but Dr. Dahne is principal force behind both (as postdoc she was unable to be PI)
4. NIDA K23 Career Development Award (funded): *Development and Testing of a Depression-Specific Behavioral Activation Mobile App Paired with Nicotine Replacement Therapy Sampling for Smoking Cessation Treatment Via Primary Care* (K23 DA045766; 4/1/2018 – 3/31/2023)
5. American Cancer Society Institutional Research Grant (ACS IRG) (funded): *Development and Evaluation of a Low Cost, Remote Method to Biochemically Verify Smoking Status*

Tracy Smith (8/2017 – 2023, concluding with her promotion from Assist → Associate Professor)

Grant Achievements (M. Carpenter, primary mentor):

1. NIDA R03 (funded): *Impact of Exclusive Use of Low Nicotine Cigarettes on Compensatory Smoking* (independent funding; informal mentor role)
2. MUSC Internal Pilot funding (funded): *The impact of e-liquid components on product appeal, reinforcement value, and tobacco use patterns*
3. NIDA K12 (funded): *Impact of e-cigarette characteristics on reinforcement and tobacco use patterns among current smokers*
4. NIDA K01 Career Development Award (funded): *Impact of e-cigarette characteristics on reinforcement and tobacco use patterns among current smokers*
5. Four separate R01s (NIDA/FDA) focused on tobacco regulatory science. All funded.

Margaret Fahey (8/2022 – present)

**Grant Achievements (M. Carpenter and J. Dahne, co-primary mentors)**

1. Loan Repayment Program (funded)
2. NIA K23 Career Development (pending review)

**Postdoctoral Fellows & Junior Faculty– Secondary Mentor**Alana Rojewski (9/2017 – present)

Grant Achievements (M. Carpenter, secondary mentor):

1. NCI K07 (funded): *Tobacco Treatment in the Context of Lung Cancer Screening* (K07 CA214839; 9/18/2017 – 8/31/2022).

Amanda Palmer (9/2020 – present)

Grant Achievements (M. Carpenter, secondary mentor):

1. NIDA K23 pending: *Development and Pilot Testing of a Combined Pharmacologic and Self-Help Behavioral Intervention for Electronic Nicotine Delivery System Cessation*

**Other Mentoring, Non-Recurring****Medical Students**Nathaniel Silvestri: 1<sup>st</sup> year med student, MUSC (summer 2018)**Master of Science in Clinical Research (MSCR) – Global Program: Medical University of South Carolina (MUSC) & Institute of Clinical Research India (ICRI)****Primary Mentor:**

Anusha Chakravarthi (Fall 2011 / Spring 2012)

Aditya Reddy Gadiko (Fall 2011 / Spring 2012)

**Drug Abuse Research Training (DART) Program – Primary Mentor**

Amy Brown, Summer Fellow (2010)

**Thesis Committees**

Jill Nonemaker (Summer, Fall 2007)

Dept of Biostatistics, Bioinformatics, and Epidemiology, MUSC (Masters Science)

Maribeth Porter, MD (Fall, Spring 2014-2015)

Dept. of Family Medicine, MUSC (MSCR Program)

Xingbao Li (Spring- Summer 2019)

Dept of Psychiatry, MUSC (MSCR Program)

**Doctoral Dissertation Committee**

Spencer Bell (2016 – 2017)

Dept of Neurosciences, MUSC

Elias Klemperer (2016 - 2018)

Dept of Psychology, University of Vermont

Stephanie Jones (2019-2021)

Dept of Public Health Sciences, MUSC

Virginia (Berlene) Shipes (2020-2022)

Dept of Public Health Sciences, MUSC

**Research Supervision / Undergraduate Work Study Students**

Amy Boatright (2007 – present)

Lindy McQuinn (Fall 2007, Spring 2008)

Nicky Thornley (1/2008 – 6/2011)

Liz Byrd (9/2008 – 5/2011)\*\*

Diana Rivera (Summer 2009 - Summer 2010)

Dakota Hadley (Summer 2009 - Spring 2010)\*

Program Coordinator

Undergraduate Student

## **TEACHING & EDUCATIONAL ACTIVITIES**

### MUSC Psychology Internship Program

1/2007 – present    Research Preceptor

### Tobacco Treatment Specialist Training

3/2022

9/2022

2/2023

### Various Lectures on Smoking Cessation & Tobacco Control, MUSC – *each recurrent annually*

2/2016 – 3/2018	Guest Lecture: College of Health Professions, Division of Physical Therapy (D. Sword, PT, DPT)
4/2010 – 4/2016	Introduction to Global Public Health (A. Selassie, PhD)
4/2010 – 6/2019	College of Dental Medicine: Graduate Dental CORE Course (J. Krayner, DDS)
4/2010 – 9/2018	College of Dental Medicine (R. Albenesius, DDS & J. Borckardt, PhD)
11/2007 – 10/2010	Dept of Psychiatry, Behavioral Medicine Intern Rotation (J. Borckardt, PhD)
11/2007 – 9/2011	College of Dental Medicine: Preventive Dentistry (S. Reed, DrPH, DDS)
7/2007 – 7/2008	College of Dental Medicine: Clinical Diagnostics Conference (A. Chi, DMD)
2/2007 – 4/2015	Guest Lecture in Cancer Epidemiology (A. Alberg, MPH, PhD; K. Sterba, PhD; K. Wallace, PhD) – <i>recurrent semi-annually</i>
6/2006 – 6/2010	Consultant for MUSC Smoking Cessation Support Group, Dept of Psychiatry
7/2003 – 5/2006	Guest Lecture: Senior Psychiatry Clerkship (4 <sup>th</sup> yr College of Medicine Students)

### Grant Writing

10/2011 – present    Psychology Internship Didactics – *recurrent annually*

Clinical Ethics

8/2008 – 4/2010 Preceptor, Introduction to Clinical Ethics (2<sup>nd</sup> yr College of Medicine Students)

Doctoring Curriculum

8/2007 – 4/2008 Preceptor, Doctoring Curriculum (1<sup>st</sup> yr College of Medicine Students)

Miscellaneous

3/2012 – 4/2013 Testing Behavioral Interventions with Randomized Clinical Trials (L. King, PhD: MUSC)  
 4/2007 Guest Lecture: Health Behavior and Epidemiology (K. Rodgers, PhD: MUSC)  
 8/2002 – 11/2002 Behavioral Medicine Grand Rounds (co-led w/ S. Rehman, MD: MUSC)  
 8/2002 – 11/2002 Senior Psychiatry Clerkship (co-led w/ W. Hiott, MD: MUSC)  
 8/2001 Guest Lecture: Drug Abuse Treatment (F. Guaracci, PhD: Dartmouth College)  
 5/2001 – 6/2001 Graduate Teaching: Abnormal Psychology (co-taught w/ W. Copeland: University of Vermont)  
 2/2001 Guest Lecture: Treatment and Prevention of Smoking (S. Solomon, PhD: University of Vermont)  
 6/2000 Guest Lecture: Tobacco/ Nicotine: Health Policies (M. Coe, , MA: University of Vermont)  
 7/1999 Guest Lecture: Heroin Abuse: Research and Treatment Considerations (R. Riggs, MA: University of Vermont)  
 9/1994 – 12/1995 Teaching Asst: SPSS & Research Methods (M. Sherman, PhD, Loyola College)

INSTITUTIONAL SERVICE

1/2008 – 2010 Member, Prevention Task Force  
 9/2003 – 2010 Vice Chair, Prevention Task Force  
 South Carolina Cancer Alliance  
  
 2/19/2007 Guest reviewer, MUSC College of Nursing, Research for Lunch  
 Mock grant review of “A Social Ecological Based, Multi-Level Smoking Cessation Intervention in Public Housing” (PI: J. Andrews, PhD)  
  
 5/2007 – 10/2011 Member, Search Committees for HCC Cancer Prevention and Control (Cancer Control Specialist, Cancer Epidemiologist)  
  
 9/2007 – 5/2011 Coordinator, HCC Cancer Prevention and Control Journal Club  
  
 8/2007 – 4/2008 Preceptor, Doctoring Curriculum; Small group discussion leader  
 College of Medicine, MUSC  
  
 9/2007 – 9/2011 Chair, Hollings Cancer Center Advisory Committee for Biostatistics and Clinical Trials  
 Shared Resources  
  
 8/2008 – 2/2011 Member, CTRC (previously GCRC) Scientific Advisory Committee, Medical University of South Carolina  
  
 9/2008 – 2009 Member, Search Committee for Hollings Cancer Center Biostatistician (Department of Biostatistics, Bioinformatics, and Epidemiology)  
  
 4/7/2009 - present Annual presentation to DART (Drug Abuse Research Training) Trainees  
 Strategies for an Effective Oral & Poster Presentation; K-Award Panels; Lab Management; Time Management (*recurrent annual*)

4/2009 – 5/2009	Inservice presentations (3) to MUSC Dept of Psychiatry (Residents, Attendings, Nurse Case Mngrs, etc): Implementation of smokefree IOP.
7/2009 – 7/2014	Hollings Cancer Center, Protocol Review Committee: Ad Hoc Reviewer
9/2009 – 9/2012	Member, Hollings Cancer Center Disparities Board
12/2009 – 6/2019	Founder & Coordinator, South Carolina Tobacco Research Interest Group (SC TRIG): monthly discussion of transdisciplinary tobacco research, grant development.
5/2010 – 3/2011	Member, Search Committee for Hollings Cancer Center Biostatistician (Department of Medicine, Division of Biostatistics and Epidemiology)
9/2012 – 10/2015	Member, MUSC Clinical Tobacco Cessation Oversight Committee, to develop Hospital-wide, proactive smoking cessation service (TelAsk). Purpose: to enroll all patients in a prospective, telephone based counseling service, in support of Joint Commission Tobacco Assessment.
2/2012 – present	MUSC SCTR Pilot Grant: Ad Hoc Reviewer
1/2013 – 1/2015	co-Chair, Addiction Sciences Program re-organization effort. Purpose: to integrate all addiction related activities within the MUSC Dept. of Psychiatry within one unit (merger of both Clinical Neurosciences Division and Center for Drug and Alcohol Programs)
	1/2015 – 5/2015: Chair, Addiction Sciences Website Redesign Committee
	6/2015 – 1/2017: co-Chair, Addiction Sciences Director Search Committee
7/2014 – present	MUSC, Department of Psychiatry & Behavioral Sciences Appointment, Promotion and Tenure Review Committee
9/2015 – 12/2016	Member, Information Security Committee, MUSC
12/2015 – 4/2016	Member, Director of MUSC Office of Research Integrity Search Committee, MUSC
1/2016 – 6/2020	Member, Clinical and Translational Research Action Committee (CTRAC); MUSC
10/2016 – 5/2019	Member, MUSC Research Communications Committee
8/2017 – present	Hollings Cancer Center, Protocol Review Committee: Ad Hoc Reviewer
10/2018 – 6/2022	MUSC, College of Medicine Bylaws Committee <u>Chair</u> , COM Nominations and Elections Committee
9/2018 – present	MUSC Clinical and Translational Science Award (CTSA): Pilot Program for Remote Clinical Trials
3/2019 3/2021	Arrow / Women's Scholar Initiative: Reviewer of Promotion Applicants
12/2019 – 1/2021	Member, Search Committee for Hollings Cancer Center Biostatistics Core Director (Department of Medicine, Division of Biostatistics and Epidemiology)
12/2019 – present	Member, MUSC Dept of Psychiatry Faculty Mentorship and Development Committee

**CONSULTING / HONORARIA**
